

## **GPRS-T1**

## **GPRS/SMS REPORTING TRANSMITTER**

The GPRS—T1 communication module is used to provide GPRS monitoring and text messaging functions via control panels equipped with a phone dialler provided by any manufacturer.

- telephone line monitoring conversion to GPRS/SMS transmission, compatible with any panel
- automatic fallback to SMS reporting in case of GPRS failure
- SMS/CLIP personal messaging
- support for CLIP test transmissions
- communication failure indication

## **TECHNICAL DATA**

| Environmental class               | II         |
|-----------------------------------|------------|
| Max. current consumption          | 220 mA     |
| Weight                            | 184 g      |
| Current capacity of the FT output | 50 mA      |
| Standby mode current consumption  | 50 mA      |
| Board dimensions                  | 80 x 57 mm |
| Operating temperature range       | -10+55 °C  |
| Nominal supply voltage (±15%)     | 12 V DC    |
