

B-4S

GATE MAGNETIC CONTACT (METAL HOUSING)

Magnetic contacts are basic elements of a perimeter protection system. Small **B-4S** tight magnetic contacts in a metal housing are designed for surface mounting. The metal screen protects the wiring against damage, which makes these contacts a perfect solution for locations particularly vulnerable to sabotage attempts or mechanical exposure. These contacts are screwed to a surface and provide an ideal solution for garage gate installation.

- surface mounted (screw mount)
- rugged, metal sealed body
- armored cable

TECHNICAL DATA

Environmental class according to EN50130-5	II
Maximum humidity	93±3%
Weight	270 g
Break distance	82 mm
Make distance	75 mm
Reed switch enclosure dimensions	88,9 x 44,5 x 11,5 mm
Dimensions magnet enclosure	73,2 x 30 x 30 mm
Operating temperature range	-10...+55 °C
