STAM-BOX

HOUSING WITH SUPERVISING STATION CARD POWER SUPPLY

The **STAM–BOX** case facilitates easy expansion of monitoring stations using additional telephone and TCP/IP receiver cards. The case has 14 PCI slots for **STAM–1 P**/**STAM–1 R**/**STAM–1 K**/ **STAM–1 PE**/**STAM–1 RE** cards. Its internal backup power supply can be connected to a backup battery, ensuring uninterruptable operation of the station in the event of 230V mains supply issues.

TECHNICAL DATA

Environmental class	II
Enclosure dimensions	550 x 480 x177 mm
Operating temperature range	-10°C...+55°C
Supply voltage	230 V AC
PCI slots for cards	14
Maximum humidity	93±3%
Weight (without cards)	14,7 kg
Recommended battery	12 V / 17 Ah
